

As an Indiana Resident I want to speak out against the proceeding 02-278. I believe even the FCC in their own attempt to get feedback and provide feedback can do it effectively through the postal system, that is why you did not require my phone number to make this comment. I don't believe my bank needs free reign or anyone else that I do business with to make unsolicited phone calls to me. I do NOT want our State's Do Not Call Law to be circumvented, preempted or diminished by federal law.
